

# UCLA Interfraternity Council

## COVID-19 Prevention Policy

In response to COVID-19 and in an effort to protect the health and wellness of the UCLA greek community, the UCLA Interfraternity Council adopts the following rules:

1. IFC Fraternities may only host events that are in accordance with both LA county public health policy and the University's on- and off-campus policies. This policy extends to all formal chapter facilities (including chapter common areas), on-campus events, as well as all offsite locations which may be used to host chapter events. Any IFC fraternities which are alleged to violate or show continued disregard for this events policy will be immediately referred to the IFC Judicial Board. Any chapter found to violate this policy can face consequences based on the degree of the chapter's infraction, as determined by the IFC Judicial Board.
2. In order to submit an event for IFC approval, all IFC fraternities must submit an event registration form to the IFC VP of Risk Management for review in accordance with the timeline outlined on the IFC Event Registration Form . This document must be completed in full and submitted for event approval to be considered and also must include the following:
  - a. A written down event attendance list and plan for enforcement.
  - b. A verified chapter vaccination log and negative Covid tests (for non-vaccinated members) dated 48 hours before the event.

The aforementioned standing rules will remain in effect until the start of the Fall 2021 Academic Quarter on September 28th, 2021. At this time, these rules may be extended, removed, or updated by a simple majority vote of the IFC Presidents Council.
